UNILOGIC

LabVIEW
Consultancy

Software Development
Custom software and LabVIEW solutions with modern technologies and frameworks

Modifying and Supporting Existing System
Enhancing, supporting, and troubleshooting LabVIEW systems for machine efficiency

Team Augmentation
Onsite and offshore teams collaborate for seamless development and support

Machine Vision System
Turnkey vision systems with NI software, hardware selection, and integration

NI Hardware
Selection and sourcing of NI hardware for your test system requirements

NI Platforms

LabVIEW | NI TestStand | NI VeriStand | NI LabWindows / CVI | Flexlogger

DIAdem | InstrumentStudio | SystemLink

AI Platforms

python | TensorFlow | OpenCV | AI | Machine Learning

Web Technology

node JS | Microsoft SQL Server | C#

aws | .NET

ni Partner

SYSTEM INTEGRATION

Partner with Unilogic to

Build robust, high-performance applications using NI LabVIEW, TestStand, VeriStand, LabVIEW RT, FPGA, and Python/AI integrations – tailored to your operational needs

250+ Projects   **30000+ hours**   **25+ industries**

Industries we serve:

- Semiconductor
- EV Automotive
- Pumps & Motors
- Manufacturing
- R & D
- Packaging
- Electronics Manufacturing Service(EMS) Groups
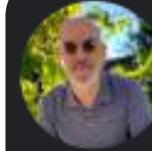

We have

DEVELOPER
10+
LabVIEW Developers

ARCHITECT
3+
LabVIEW Architects

ASSOCIATE DEVELOPER
2+
LabVIEW Associates

"Empowering Innovation Through Expert LabVIEW Solutions"

Our Valuable Clients :

SAMSUNG   NXP   Tektronix
Danfoss   PDF/SOLUTIONS   LENNOX
HARMAN   tcs   MOOG
ALSTOM   ATHER   BOSCH
pricol   Continental   Valeo
Oral-B   FLOWSERVE   SKF
Amphenol FCi   Mahindra DEFENCE   L&T Construction
TITAN COMPANY   P&G   SGD PHARMA

Offshore Development center

▶ **PDF Solutions, San Jose, USA**
Ongoing support on **eProbe tools** for about **10+ years**

▶ **Flowserve, Saudi Arabia & Mexico**
Delivered an **automated pump test system** integrating sound and vibration analysis

▶ **Electrotechnik, Sydney, Australia**
Developed **advanced software tools** (Safe Grid, Cable HV, and Cable Pro (PC))
